CLEAN INDUSTRY WILL DELIVER **STRONGER** **ECONOMIES**

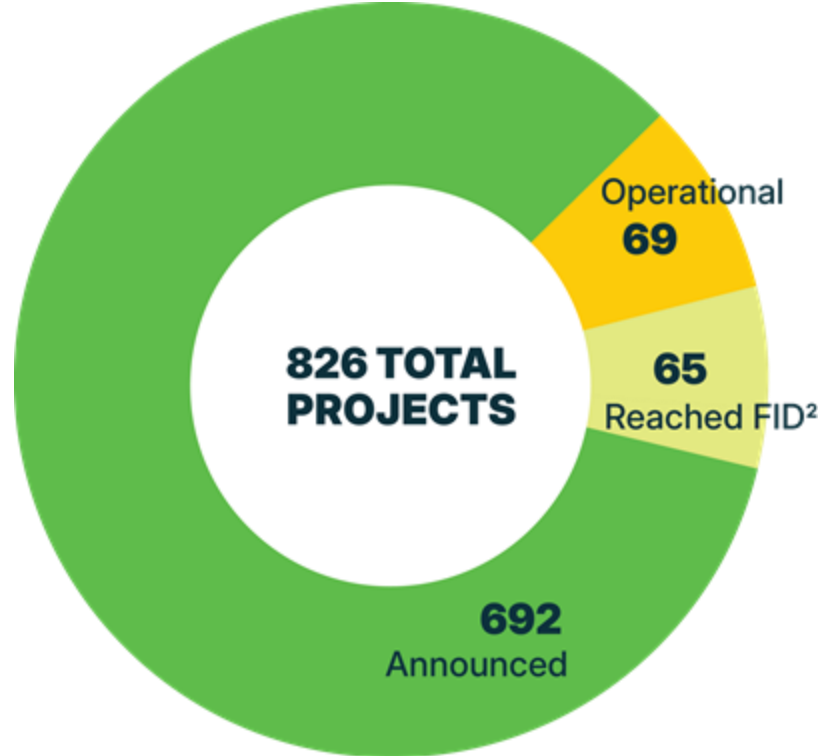

Every country can benefit from clean industry.

Plans for clean plants exist across **70** countries, within developed economies and emerging markets.

New industrial development creates resilient supply chains, new jobs, and greater energy and food security, while supporting a healthier planet.

Those countries that move fastest will gain a competitive edge.

WE CAN UNLEASH UNSTOPPABLE PROGRESS IN THE NEXT 5 YEARS

Accelerating the pace of investment year-on-year for 5 years can unleash exponential growth in clean industry development and major socio-economic benefits.

A critical mass of **800+ projects** will drive down costs and speed up deployment, forging the industrial future.

BUILD CLEAN NOW

FORGING THE INDUSTRIAL FUTURE

A GLOBAL CAMPAIGN TO FAST-TRACK THE CLEAN INDUSTRIAL REVOLUTION

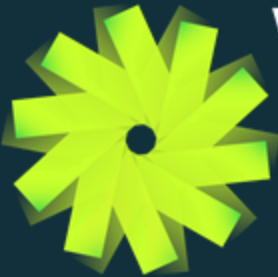

This is the time to seize the major economic and development opportunity in front of us.

With our partners, we will mobilise countries, companies, and capital providers to accelerate the pace at which clean industrial plants are financed and built, year-on-year.

Our near-term ambition is to reach 50 financed projects over 2025-2026.

Exponential growth must start now.
